HIGHLY IMPORTANT DISCOVERY.

Fousel's Fabulum Vitæ

Has now gained its position before the public as THE ONLY REMEDY yet discovered for the speedy relief and permanent cure of

CONSUMPTION,

Coughs, Colds, Hoarseness, Bronchitis, and all other Pulmonary Complaints.

The discovery of an eminent French Physician after many years of study and observation, it continues to work with the most ASTONISHING SUCCESS in all the Throat complaints.

Accompanied with numerous certificates of the commendation of some of the first Physicians, and the analysis by the State Assayer, all give

THE UNRIVALLED VIRTUES

and Unquelled Superiority

of this, the only other remedy now extant on which the public can rely for relief and reputation. From its Extraordinary Virtues, Prompt Action, Great Strength, and complete Purity, it has been thrown upon all the regular physicians, with which worth they have been imposed upon, and a dollar many from the benefits of this preparation. Its medicine is not only perfectly harmless, but it will effect all that is claimed for it, having heard of a single case of failure, satisfaction.

Sold in Ones to Four Bottles, Varying in Price from One to Three Dollars, Warranted to Cure Days, by using less than One Bottle, Warranted to Cure Long less than One Bottle.

Sold by Druggists and Apothecaries throughout the United States and British Provinces.

Scientific American.

PROSPECTUS.

Volume Fourteen.

BEGINS SEPTEMBER 11, 1858.

MECHANICS, INVENTORS, MANUFACTURERS AND FARMERS.

THE SCIENTIFIC AMERICAN has now reached its Fourteenth Year, and will enter upon a new volume on the 11th of September. It is the only publication of its kind now issued in this country, and it has a very extensive circulation in all the States of the Union. It is not, as might be supposed from its title, a dry, abstruse work on technical science, on the contrary, it deals with the great events going on in the mechanical and industrial worlds, and is read by every one. If the Mechanic or Artisan wishes to know the best manner in which to make any substance employed in his business—if the Housewife wishes a recipe for making a good color, &c.—if the Farmer wishes to know what is going on in the world of improvements—if the Manufacturer would keep posted with the times, and to employ the best machinery in his business—if the Student of Science and Study wishes to keep himself informed of the great strides made in the Chemical Art, in the construction of telegraphs, locomotives, reapers, mowers, and a hundred other machines, both of peace and war—in fact, whatever it may be that can be found in the Scientific Journals, and not elsewhere. They are ever filled with a reliable and interesting form, a comprehension of minds unlearned in the branches of science and art.

TERMS.—One Copy, One year, $1.00. One Copy, Six Months, $1. Five Copies, Six Months, $4. Ten Copies, Six Months, $8. Fifteen Copies, 12 Months, $12. Twenty Copies, Twelve Months, $20, in advance.

Specimens sent gratuitously for the asking. Western money, or Postage Stamps for subscriptions. Letters should be directed to MUNN & CO., 128 Fulton Street, New York.

Messrs. Munn & Co. are extensively engaged in preparing patents for new inventions, and in prosecuting inventions, without charge, in regard to which they possess unparalleled facilities. aug21

SWAIM'S Celebrated Panacea,

A TONIC OR AN ALTERATIVE IN INCIPIENT CONSUMPTION,

Scrofula, General Debility, White Swelling, Rheumatism, Diseases of the Liver and Skin and all Diseases arising from Impurities of the Blood, and the effects of Mercury.

SWAIM'S PANACEA has been for more than thirty years celebrated in this country and in Europe for its extraordinary cures—for the certificates of which reference is made to the directions and books, which may be had gratis) accompanying the Panacea.

It has been used in hospitals and private practice, and has had the unequaled fortune of being recommended by the most celebrated physicians and other eminent persons. Among others by

W. Gibson, M. D., Prof. of Surgery, Pa. Univ.
Valentine Mott, M. D., Prof. of Surgery, New York University.
W. P. Dewees, M. D., Prof. of Mid. Pa. Univ.
N. Chapman, M. D., Prof. of Theor. Pa. Univ.
T. Parke, M. D., Prof. College Phys. and Surg. Phila.
Dr. Del Valle, Professor of Medicine, Havana.
Jose Fonseca de Los, Prof. of Surgery, Lisbon.
J. Chapman, Member Royal College Surgeons, London.
G. W. Erving, late Minister to Spain.
Sir Thomas Pearson, Maj. Gen. British Army.
Gilbert Robertson, British Consul, &c., &c.

Besides a large number of Ministers of the Gospel, Members of Congress, Philanthropists, &c.

And also the wonderful cures effected by Swaim's Panacea, stop for many years, made it an invaluable remedy. The Panacea does not contain mercury in any form, and being an innocent preparation, it may be given to the most tender infant.

The retail price has been reduced to $1.50 per bottle, (containing three half pints,) of these bottles for $4.

BEWARE OF IMPOSITION.

Swaim's Panacea is in round bottles, diagonally, with the following letters blown on the glass:

"SWAIM'S—PANACEA—PHILADA."

and having the name of Jas. Swaim stamped on the sealing wax and writ on on the label covering the cork, and a new label for the side of the bottle, composed in reimetic lathe work, containing nine different dies, which have been invented for the exclusive use of the proprietor, by Draper & Co., bank note engravers, of Phila. Four dies of different prints run around the body of the work, and in the centre is a portrait of the late Wm. Swaim, opposite from the header by two circles of lathe work. The words "Swaim's Panacea" are engraved conspicuously on two curved straps, and a large scroll encircling the arms the upper part. The borders are composed of plain lathe work straps, outside of which engraved, in small letters the entire specification. Aug.

Swaim's Vermifuge,

A valuable anthelmintic, being a highly approved remedy for all diseases arising from debility of the digestive organs such as Worms, Cholera Morbus, Dysentery, Fever and Ague, Bleeding Piles, Sick Headache, &c., &c. See the Pamphlet (which may be had gratis upon applying for Vermifuge.

Prepared only by the SWAIM'S LABORATORY, (THE OLD STAND) Seventh Street, below Chestnut, Philadelphia, and sold by all the respectable Druggists in the United States.

CAUTION TO THE PUBLIC.

Persons wishing to obtain the genuine SWAIM'S PANACEA and SWAIM'S VERMIFUGE, should be careful to observe that the name

SWAIM

is upon the stamp, correctly on the bottle and label, or they may be imposed on by medicines made in imitation of them by a person bearing a somewhat similar name, well established to deceive.

REMOVAL.

United States and Foreign PATENT AGENCY.

SAMUEL COOPER,

Late Principal Examiner of Patents in the United States Patent Office, at Washington,

HAS REMOVED HIS OFFICE TO

WEBSTER BANK BUILDING, 13 Exchange Street, Boston.

PATENTS secured in the United States, and in all other patent granting countries. Specifications and drawings prepared. Caveats filed. Reconsiderations prepared, of Patents issued. Interferences prosecuted. Reissues and extensions procured, and in general, all business connected with the Patent office transacted with care and promptness.

British and foreign patents procured thro' prompt and confidential agents in London and Paris.

Persons residing at a distance may obtain all necessary information, and have their business transacted, by writing to the subscriber, without the trouble or expense of a visit to Washington.

He begs leave to refer those acquainted with him to the following testimonials:—

From Hon. Charles Mason, Commissioner of Patents.—

U. S. Patent Office, Feb. 23, 1853.

I take great satisfaction in stating that Mr. Samuel Cooper, Esq., of Boston, has been employed in this office, and has been in the habit of transacting business with the Patent Office, and has been in constant correspondence and intercourse with the Office, he has evinced a thorough acquaintance with the Patent Law and with the rules and practice of the Office, a clear discrimination in the selection of the points of novelty in the inventions of his clients, and a marked candor and courtesy that has rendered the transaction of business with him a pleasant one. I have no hesitation in stating that I regard him as one of the very best agents for the transaction of business with the Patent Office.

CHARLES MASON, Commissioner of Patents.

From the Examiners of the Patent Office.

The undersigned, Examiners and Assistant Examiners in the United States Patent Office, have for several years been well acquainted with Mr. Samuel Cooper, late a principal Examiner in this office, and take pleasure in stating that he has a good share of the highest order of character, of unusual attainments in the business and practice of the office, and that his scientific attainments are such as to render very efficient aid in the business in which he is about to engage.

HENRY L. ELLSWORTH, C. D. MALLORY, S. H. HUNT, } Principal Examiners.

F. SHUMAN, GAGE SMITH, T. R. SEALE, THOS. T. GREETT, WM. D. LANGDON, } Assistant Examiners.

Persons having an interest in obtaining official opinions with Mr. Cooper, I fully and heartily concur in the foregoing recommendation. Needs by my late colleagues.

The constitution of the Association provides that the Association shall be governed by a Board of Directors, consisting of the President, Vice President, Treasurer, Secretary, and Assistant Secretary, and twenty-four other members, to be chosen annually by the Association, and that the Board of Directors shall have the management of the Association, and shall have power to fill all vacancies occurring in their number, and to make such rules and regulations for the government of the Association, and for the management of the Mount Vernon Fund, as they may deem proper, not inconsistent with the rules and regulations of the Association. The Board of Directors are authorized to transact business at Richmond, Va., and to elect an agent to act in the State of Virginia, who shall have charge of the Mount Vernon Fund, and shall be authorized to transact business with the Vice Regent of the State, the Vice Regents of the Association, and with the Board of Directors, and to receive and pay over the funds of the Association, and to perform such other duties as may be required by the Board of Directors, and carefully to preserve the property of the Association, and to perform such other duties as may be required by the Board of Directors, and to receive and pay over the funds

Union, and forward a copy to the Regent or Secretary.

The generous offer of the Masonic Fraternity of Virginia, and, through them, of the Union, to aid the Mount Vernon Ladies' Association in the accomplishment of their sacred object, has been gratefully accepted, and it is confidently believed that their contributions will be equal to their high appreciation of the character and virtues of their illustrious brother.

SUSAN I. PELLET, Secretary.

Richmond, June 24, 1858.

We would call attention of the Daughters and Sons of Maine to the "Report of the Mount Vernon Ladies' Association of the Union," and would also remark that arrangements have been entered into with influential ladies in the several counties, to present the object of the Association to the several cities and towns, that circulars with a subscription list appended, will be placed in the hands of the collectors during the present week, and it is earnestly hoped that such a response will be made by Portland to this call, as will prove a noble example to the other cities and towns, and be a guaranty for the success of the subscriptions through the State.

The Moral Effect of our Election

Has undoubtedly been of the most invigorating character upon the Republican cause in other States. It has shown to our friends that the vital strength of the party is in the principles, and in a strong Republican organization—and that such principles and such an organization the people will sustain despite the most frantic efforts of the administration and its office holders. Those efforts have been put forth this year in Maine, with a most determined energy, and with the aid of Republican apathy or self security—but they have utterly failed. The cause is grounded in the hearts of the people, and will *stand* upon that basis.

The Maine election demonstrates this, and its moral effects will be of inestimable value towards securing a popular triumph of the good cause in New York, Pennsylvania, Indiana, Illinois, and other States whose elections occur within the next two months. How it is viewed abroad is seen by the comments of the New York Post, which thus speaks of our result:

"The news of the election in Maine is of good augury. The Pine Tree State follows Vermont in the list of Republican Governor, an unbroken Republican delegation to Congress, and a Republican legislature, insuring beyond a doubt the return of that honored and faithful statesman, Senator Fessenden, to his seat in the United States Senate. Considering that no national issues were immediately pressing on the public mind, and the attachment of the people to the great principles of democracy is so strong as to give an unmerited prestige to a party merely labelled with its name, and the unfavorable effects of the Administration and its free use of patronage, the defying influence of the party by vindictive threats of repeaters in the South, as well as to divert attention from paramount questions to trivial topics of a local character, this result is signally auspicious and significant."

It then goes on to speak of the advantages of a thorough organization (which, by the way, the Republicans of Maine did *not* have, as their best supporters) and of the odds of money and activity we had to contend against, —and adds:

"Another feature of the struggle was the complete defeating of all spurious and unnecessary compromises with the enemy. Planting a just confidence in the soundness and necessary popularity of their cause and the utter impotence of the Know Nothing organization, the Republicans contented themselves with a steady adherence to that broad and generous platform on which they started, knowing that whatever there was worth having in the paralyzed factions of old Whiggery and Nativism would spontaneously come upon it. There was no thoughtless clamoring in immaterial details, but there was also no dishonorizing abandonment of vital principle. The contest was fought nobly and above board, and we rejoice in its invigorating influence on the tone of political feeling not only in Maine, but in the Republican party throughout the Union."

We have pleasant quarters near the head waters of a very Salt river which we propose to vacate about the second week in September next. We were further up, but came down one-fourth of the way on the 13th. If any good Republican brother wishes to purchase our establishment we shall sell at a reasonable rate.—*Both Times.*

We are pleased to learn that our Bath brother is pleasantly located. It is always desirable to secure a good situation for a home each. He may exercise "squatter sovereignty" there about till the crack of doom.

PERSONAL TACTICS.—The Machias Republican says it is reported there that Bradbury got a big vote in one of the plantations by obtaining the suffrages of his Indian friends. We know that many of Hion's voters were decidedly "blue" on the day of election, but did not suppose he had been canvassing in the lodges of his red brethren. It is likely that they were also blue before the sun left the hunting grounds.

It is stated that the bankers even between $6000 and $7000 in the attempt to carry the Sixth District. What use was made of that money we may well imagine.

A dispatch to the Standard from Bangor, on Saturday evening, announced the election of Bradbury, in the 6th District, by a majority of from 30 to 50 votes. This election is conceded by the Republicans.—*Newcastle Democrat.*

We should like to know who sent any such despatch from Bangor, and what Republicans conceded the election.

Course of the Carlisle in Massachusetts.

The gallant Democracy of Massachusetts opened their campaign on Bunker Hill last Monday evening. An immense concourse of people thronged Charlestown Square, which was a blaze of glory.—*Union.*

Our neighbor then goes on to copy the address made to the Convention by Mr. Erasmus D. Leach, the Democratic candidate for Governor, but does not mention that the following, among other resolutions, was passed amid this democratic "blaze of glory":

"That we also repudiate and condemn the doctrine that right is written in the constitution and affirmed by our highest judicial tribunals, can by be nullified by state or territorial legislation by their refusal to pass laws protective and defensive of all persons and property. That the rights of citizens of territories, coming from north or south, investing their property of all descriptions, *whether of fabrics of New England manufacture* or PROPERTY IN NEGROES, are SACRED. And that any suggestion, emanating from any quarter, affirming to be constitutional rights of the people in a State or territory can be by "lawful means" obliterated, or with bald by non-action or the part of the law-making power, is based on a loose ness of political morals, a slightness to constitutional obligations repugnant to the sense of the democracy of the Union.

"There you have our northern democracy in what the Union falls a "blaze of glory."—There you have the platform of the democracy of 1860! There you have it decreed plainly, openly, unblushingly,—that "PROPERTY IN NEGROES IS SACRED IN THE NATIONAL TERRITORIES,—and not only that it cannot be touched either by Congress or by Territorial Legislatures, but that this right of property cannot be nullified by a refusal of State or Territorial Legislatures to pass laws for its protection." There is a distinct repudiation by the leaders of New England democracy of Senator Douglas's act of dodge that although the Dred Scott decision (that slavery goes into the territories under the constitution) is correct and must stand, still the Territorial Legislature may make it nugatory by refusing to pass a law to *protect* slavery. This was only a dodge of Douglas to catch votes in Illinois; but the Charlestown Custom House Convention had no idea of letting him stand on any such ground. He, and the whole northern party must come square up to what is your democratic doctrine, NOW—viz: that the Constitution carries slavery in the Territories, and the Congress or the Territorial Legislatures MUST PROTECT IT THERE. If the Legislature won't do it, then Congress must. This is the platform, gentlemen of democracy of the North. Step on to it for the campaign of 1860. It is "by a charity" from Washington, and as we are informed by the Boston Post the reading of it excited great applause!"

After reading the above most intense pro-slavery resolution of the Charleston Convention, in which the slavery question is thus again "agitated" in the most offensive manner to most persons, the following remark of Mr. Beach in his address to the Convention, certainly appears cool and refreshing:

"It is time that the sectional warfare should cease. It is high time that the politicians of Massachusetts should leave the agitation of this slavery question—for this is the bitter root of all our political troubles—where the constitution leaves it, to the States where it exists, to be maintained or abolished, as the people in those States shall decree."

And yet the resolution says that the right to hold slaves is thus secured by the Constitution, and "cannot be interfered either by State or Territorial legislation." We ask our neighbor of the Union what that means. Does it mean that not even *States* can in the Union constitutionally pass laws against slavery? If it does not mean that, what does it mean?

YELLOW FEVER AT SEA.—*Sunrise rose death of Capts Simmons and his wife.* The following is an extract from a letter dated London, Sept 3, from Christopher Crowell, first officer of the ship Hero, of Boston:

"I have the sad and melancholy duty to inform you of the death of Capt Charles Simmons and his wife Eliza, who died at sea, of yellow fever, aboard, in the lat. of 31.46 N., lon. 73.15 W. We left the bar on the 14th of July, all well; on the 16th one of the men was taken sick; 18th, the disease showed itself to be the yellow fever; 21st, he died. The next day three more men were taken, but finally recovered. 24th, Captain Simmons was taken very sick and everything was done to the best of his ability and my opinion to relieve him. 26th, at Mr S. was taken, and the second mate on same day, feeling my sickness coming on, I put the ship under short sail, and told the men they must do the best they could, and gave them a course to steer. The ship was then 60 miles west from Tortugas, just clear of the coast. Imagine our situation, all, not an individual able to go on deck, and no one with sense sufficient to have the assurance that we knew my bing. I was very sick for twenty-four hours, but succeeded in breaking my fever up; found the captain a little better and his wife very low. He told me, however, he did not think he could live—and his cause—and gave me some directions about his little boy, who was with him.

On the 1st of August he grew worse, and stopped talking, and lay looking at his wife, who lay crying before him. A few minutes at 1 P. M. he expired, and thirty minutes past 1 Mrs Simmons died. This was our situation: I was so weak I could just walk across the cabin without a staff. The 2d mate was confined to his room, and not a man knew enough to take the sun. After, waiting a reasonable time I hoisted my boat to the west with the usual ceremony; and so ends duty for me to perform. Sept 6, I arrived here after a passage of 47 days from N. O.

FRANK BLAIR AND HIS SLAVES.—Hon. F. P. Blair, Jr., says in a letter to an Illinois gentleman:—

"You desire to know whether the statement contained in that paper, to the effect that I am the owner of thirty slaves, is true or not. The statement was true. I am the owner of a few slaves, *some of them purchased by me to prevent them from being separated from their families, and I have others inherited from my own.* The Instant I a locate wealth, I conscientiously give freedom to all the slaves in Missouri, my own inclination, and should consider this great soon thus purchased by the sacrifice of whatever interest I have in that species of property."

THE ATLANTIC CABLE.—A message from A. H. Mackay, Superintendent of the Newfoundland line, dated Harbor Grace, Sept 22d says, "To Agent of the Associated Press—They have been getting good current signals from Valen ia for the last three days."—*Phila. Evening Paper.*

LOCAL AND MAINE NEWS.

CHANGE OF WEATHER.—Friday, Tuesday was one of the warmest, most oppressive days of the hottest autumn term. In the afternoon and during the night an abrupt change came on, marked by the occurrence of heavy thunder showers in the whole eastern region of Maine, and we presume extending generally over the State. During these storms several deaths by lightning occurred in this vicinity, as we have before stated.

On Wednesday morning the change in the temperature became marked, and with a fresh northwest wind, the mercury continued to fall during the day; and on Wednesday night, with the moon at the full, came the first considerable frost of the season. In some parts it is reported as a heavy black rost, striking corn squashes, &c., very perceptibly. The amount of damage we cannot now estimate. The corn crop is the only one where much loss could have occurred—and as regard to that, a large portion must have been beyond the reach of frost. In low lands, however, the damage is doubtless considerably.

GRAND MILITARY AND CIVIC BALL.—The First Regiment, of the First Brigade, Ninth Division, will give a grand Military and Civic Ball at Norombega, on the occasion of the Military Review and Encampment in this city next week. It will take place at the close of the military demonstration, on Thursday evening, Sept. 30th,—and the music will be by *Chandler's Portland Band.* The arrangements and the management are in the hands of an efficient corps of gentlemen; and no special assurances are needed that there will be a brilliant assemblage, and a happy occasion. Tickets may be had at Messrs Bugbee & Co.'s bookstore, at Thos. Hersey's, Main Street, and D. M. Howard's Exchange street. See advertisement.

The alarm of fire last evening, was caused by the burning of a small quantity of spirits of turpentine, in the store of Mr Cutnaud, on Kenduskeag Bridge. A young man was cleaning his hands with the spirits, and was burned, but not seriously. There was no damage to the store.

A very painful circumstance occurred in connection with the alarm. Mr Oliver Cates either slipped or was thrown down in the mob upon the bridge, and had one of his legs very badly broken and wounded—being run over by one of the engines, as it reported. He was attended by Drs Seavey and Barker, and was properly cared for.

"WHO SHALL GIVE US A SIGN?" We are pleased to see that the street signs have again been placed at the corners of the streets. All strangers will rise up and call our city fathers blessed.

The office of Dr. A. K. Newton, dentist, of Portland, was robbed of quite a large amount of gold plate and other property, on the night of the 10th inst.

A GOOD CROP. The Machias Republican says that Mr. Geo G Gates, of Robbinston, imported last year three Cotswold lambs which produced this season 28 3-4 pounds of wool, of excellent quality.

A COOL OPERATION.—A couple of fast girls from Bangor were at Stillwater yesterday, and finding a horse and carriage belonging to Mr. John B Gilman hitched in the street, took possession of the establishment for a ride. Officer Bicknell soon introduced himself to the fast fair ones, and brought them to a lock up.

CHAPTER OF ACCIDENTS.—At Gardiner, on Monday last, a Mr Richardson, while driving his oxen, carelessly stepped before them, was knocked down and one of the oxen trod upon his head just behind his ear, inflicting an injury from which he died on Tuesday morning. On the same day Elbridge Perry, Deputy Sheriff, was thrown from his carriage and seriously injured on his head, and received a sprain that is likely to be long in getting well. The son of L Clay, Esq. was also thrown from an ox-cart, and had his leg broken.

The execution at Auburn seems to have whetted the appetite for blood, so that petitions, we understand, are in circulation requesting Gov. Morrill to issue a warrant for the execution of Knights, who has been in the State's Prison for some time past.

The Ellsworth American says that Charles Lowell, Esq., of Ellsworth, is fast declining under an incurable malady. He was carried up the falls on Monday and voted. He is represented as being very much emaciated, and a great sufferer.

The Lincoln Advertiser says that the rest of John T. Berry who was elected Representative from Rockland by a plurality of one vote, will be contested by Mr Hilton, the Republican opponent, as illegal votes were thrown for him without which he would fall short of a plurality.

The Washington county papers have begun the bear business in season, this fall. The Republican chronicles the killing of a 340 pounder, last week on the premises of Mr. E Moore, in Pembroke.

Sch Lucy, Laughton, which arrived at Boston 19th inst, on her passage from Pembroke, Maine, sprung a leak in a gale, lost both anchors and chains, together with boat and half her deck load of bark, off Cape Small Point, Maine; also lost one man overboard, about 9 o'clock, but was fortunate enough to recover him by means of a boat-hook, although it was dark and foggy at the time. The sch afterwards ran ashore on an island, or ledge, and remained six hours. She was then got off by means of small bower and a kedge anchor, and arrived at Boston safe.

ACCOSTOOK ITEMS, from the Pioneer.

BIRD TASTER OATS.—Mr J. Wright brought into our office last week, some stalks of oats which measured seven feet and six inches.—Also, some wheat which measured six feet. Mr. Caleb Wright gave us a bunch of barley from *one seed*, on which may be counted 39 heads.

POTATOES.—Mr J. W. Porter deposited on our table some specimens of potatoes that are hard to beat. He says he raised 71 bbs. from 10 hills, and that these are some of them.

BEAT THIS WHO CAN.—Mr J. Smith of Intervale, informs us that he planted five potatoes on burnt land last spring, from which he harvested *four bushels.* One of them produced he raised weighed two pounds.

RAN AWAY.—On Monday afternoon last, as the wife of Mr J S Rich was driving into town, the horse became suddenly frightened, when a short distance beyond the cemetery, and ran furiously towards the town. Finding she could not control the horse, Mrs R climbed over the seat and leaped from the wagon, just as it reached the top of Wilson Hill—thus by her coolness and judgment saving herself from severe injury, if not from death.—The horse kept on down the hill and along Main street, until the wagon came in contact with another standing at the side of the street, belonging to Mr Elisha Swift, damaging both vehicles considerably. The animal was at last stopped by a wheel coming in contact with a post, by which the wagon was wrecked; but fortunately without detriment to life or limb.

Republican Jour.

John D. Bernard, Esq., for twenty years Cashier of Thomaston Bank, died very suddenly on the 12th inst. He was buried with Masonic honors.

PICK-POCKETS!—A gang of pickpockets, not homebred, left here yesterday for Augusta to attend the State Fair. Previous to leaving, in order to get their hands in, they made free with a lady's purse containing $12 and took from almost before a gentleman's eyes his wallet; how much it contained we did not hear. These exploits took place at the Kennebec & Portland depot at noon, previous to the leaving of the cars. Before reaching Augusta, we are told that the conductor heard complaints from seven unfortunate individuals, on the train, who had been pillaged. We learn that Mayor Jewett telegraphed to the Mayor of Augusta, warning him of the "distinguished strangers" in their midst.—*Portland Adv.*

SHIPWRECK AND LOSS OF LIFE.—*New York, Sept 22.* Cap ain Schenck of the steamer Alabama, which arrived yesterday from Savannah, makes the following report relative to the loss of the schooner J W Hale, and the wife of the captain.—"Sept 19, at 11 A. M., in lat 33. lon 76.10, saw a wreck with signals of distress flying; ran down to her; proved to be the schooner J W Hale of Brooklin, Me; a heavy sea running at the time, and nothing but the top of her house visible above water. We lowered a boat and took off Capt. Elisha C Friend, of Sedgwick, Me; John C Carter, mate, of Brooklin, Me; Frank Sotho, steward, of Boston; James Lamsbury, of Brooksville, and Frank Fruiers, of Boston, seamen, and Walter S Lee, of Sedgwick, boy. The J W Hale was bound from Jacksonville, Fla, to New York, with a cargo of lumber, and was capsized on the night of the 15th inst, in a heavy gale, when she lost both masts and the boat, and the vessel filled with water. The captain and crew had been on the top of the house for four days and a half. The captain's wife, Miss Anna Friend, was washed out of the cabin and lost."

A gentleman in the depot in this city yesterday afternoon was congratulating himself on not having his pockets picked during his attendance at the Fair. Shortly afterwards, having occasion to use some money, he felt for his pocket book, and found it among the missing; and our friend who was so confident of having stored cider of the pick-pocks a proved to be their victim to the amount of about $300!—*Kennebec Journal.*

ACCIDENT AT STRAWBERRY.—On Saturday last, as the team of Messrs F A Waldron & Co. loaded with sewer blocks, had got in front of their mill, located at the further end of Strawberry Bridge, the structure gave way, precipitating the whole concern, driver included, into the stream. Very fortunately the man escaped injury, but one of the horses was slightly hurt.—*Portland Adv.*

Brig Emeline, from Bangor for Boston, dragged her anchor 15 inst, and went ashore at Wescott's Point, near Brooksville, but came off again next tide without damage.

FAD ACCIDENT.—On Monday last, Mr Clark Simpson, of West Waterville, while superintending the erection of the new building of the Dunn Edge Tool Co., fell abt 12 feet, striking upon his head and shoulder, and was taken up senseless. Dr Bolfe was immediately called, and found one shoulder fractured and a gash in the back of the head. No fracture of the skull could be discovered, though there was evidence of severe injury to the brain. He was still lying in a state of stupor on Tuesday evening, at which time it was thought there was small chance for his recovery.—*Waterville Mail.*

THE SIXTH CONGRESSIONAL DISTRICT.—We have carefully arranged the vote of the Sixth District and given all the claimed and reported votes for Bradbury, and also Foster in a column. As a specimen of what we have assembled in our table we would refer to the plantation of Merrill, a new place, never heard of, and the return of which is made up on an old blank which has been out of use for years, and even in into the Congressional vote is omitted; but we insert it according to the return of the Vote to Governor. There is, too, a fabulous plantation called Walin Lim, which a reported majority of forty votes for Bradbury. This is *not to say* pray low, presuming upon the verdancy of the people, but even this Walin grass is the dodge of Bradbury to a election time, and still Foster leads, and is elected.

Letter from Kansas.

The Mysteries of the Land Office—How the Preemptors Victimize Uncle Sam—Home Items, &c.

SUMNER, Kansas, Sept. 11, 1858.

To the Editor of the Boston Journal:

Every boy in the country knows that the pre-emption laws are intended to enable each actual settler and cultivator of the soil, and *no one else*, to secure a quarter section (one hundred and sixty acres) for a homestead, at the government price of a dollar and a quarter an acre—or, rather, at any price for which he can purchase a hundred and sixty acre land warrant, which is usually less than one dollar per acre. But public sentiment in the new country decided the every man, whether a tiller of the soil or not, is entitled to his quarter section of land. Consequently, everybody who can raise the money pre-empts. In Kansas and Nebraska not more than one-third of the pre-emptions are made by actual settlers, with the spirit of the law. A young man living in some town—say a mechanic, merchant, or lawyer—enters "a claim." He mounts his horse, rides out into the country, ten, twenty, or thirty miles, as the case may be, until he reaches the region of vacant land. He gives some settler five dollars to show him vacant "claims," or some one which pleases him, takes four poles, often not more than three inches in diameter, and places them on the ground, of or the manner of commencing juvenile log houses. Then he has "made a settlement"—drops some silver, which, by pretty hard swearing, may be interpreted as laying the foundation for his house!

He then goes to the land office and "files" on his claim, *i. e.* gives a notice to the Register that he has "commenced a settlement" on this claim, for the purpose of actual residence. The law provides that at least thirty days must elapse between this "filing" and the final "proving-up" and pre-emption, so our hero returns from the land-office to his business or home, and does not go near his claim for a month or more. When he is ready to pre-empt he visits it again, and constructs his "house." This is usually made of rough boards or slabs, at an expense of from $10 to $20. It is without floor, chimney or window, and would not pass in New England for a respectable barn.—But he sleeps in it for a single night, or takes a spread in it, and then posts off to the land-office again with his witness, to "prove up."

Here he signs a certificate, stating that he desires to pre-empt the quarter section of land for his own "exclusive use and benefit." His witness is put under oath, and swears that the pre-emptor "settled" on the land at the date of his filing; that it is his home, and he is now living upon it! Sometimes the officers of the land office ask troublesome questions, but the witness can usually answer as hard questions as they can ask; the pre-emptor pays for his land, gets his duplicate or certificate of ownership, (the patent from government comes along in three or four years from the circumlocution office) and goes about his business.—And then, in three cases out of four, unless he is an actual resident on his claim, for the purpose of farming, he does not go near it again, until he has an opportunity to sell it at advanced figures. And that's the way the land is usually pre-empted by "settlers."

But the most popular plan is to *evade* the pre-emption law and outwit the officers. The "dodges" resorted to for this purpose are numberless, and sometimes amusing. In many instances regulations are made prohibiting any man from pre-empting unless his house is at least twelve feet square. On several occasions, when asked the size of houses, witnesses have answered promptly, "twelve by fourteen," and the pre-emption has been made, where the houses in question were twelve *inches* by fourteen, the officers of course understanding the witness to mean twelve *feet.* As some land offices the rule is established that no house is sufficient to pre-empt upon unless it contained a window. I was travelling in the interior some weeks since, and stopped in a little slab cabin, where I noticed a window sash, without lights, hanging up on a nail.—As I had noticed this in several other "constructive" houses, I asked its purpose.

"To pre-empt with," was the reply.

"How?"

"Why, don't you understand? To enable my witness to swear that there is a window in my house."

The Washington Union makes the following apology for the President in restoring the captured Africans to their own country:

"It is not for us to comment upon the policy of a law which consigns these captives again, after but a year's respite, to the miserable existence which they had escaped on their native shores; or to raise the question *whether their own welfare would not have been far better consulted by returning them here*—rather consigning them to a *compulsory and natural bondage* on our Southern plantations, or turning them over to the officious philanthropy of New England Abolitionists. *Its act speaks for itself*, and while it continues thus to be written, such a discussion would be only a vain speculation."

ANOTHER SUFFOLK BANK OPERATION.—The Lowell News relates the following:

"This morning two Suffolk Bank officials appeared at the Waltham Bank (capital $160,000) and presenting $45,000 in bills demanded specie therefor. At the same time to prevent any aid from outside, a like demand was made on the Appleton Bank for $16,000. Under ordinary circumstances the Waltham would have some $5000 of specie lying idle in its vault, but it was not to be caught napping, and the Suffolk gentry found it ready with $30,000 in gold. Offers of help, too, were made by some of the best Boston banks, but not needed, as in the recent case of the Merchant's Bank no aid was needed. Of course the demand on the Appleton (capital $200,000) was disposed of with little trouble."

SPECIAL NOTICES.

DR P. P. QUIMBY,

After a temporary absence, has returned to Bangor and may be found at his Room, No 20 Hatch House, to attend those desiring his services.

☞ Those calling upon the Doctor should understand that he can form no reliable opinion except by an examination of the case and the examination is described by the feelings of the patients and declaring the disease. Prior conversation with him is of no value, and only serves time, which is valuable. sept24

TELEGRAPHIC

TO THE DAILY WHIG AND COURIER

From Washington.

WASHINGTON, Sept 23.

The receipts into the Treasury last week were $1,166,000, a reduction of nearly $200,000, compared with those of the previous week. The amount subject to draft is $12,800,000.

The Land Office at Stillwater has been removed to Cambridge, and at Fairbault to St Peters, Minnesota.

From New York.

NEW YORK, Sept 23.

The works of the Empire Stone Dressing Mills were burned this evening, together with a saw mill on the premises, and a large stock of dressed and undressed lumber. The premises occupied the whole square, bounded by 29th and 30th Sts and East River, and were covered with buildings, lumber and other stock. The fire commenced at six o'clock, and was burning fearfully at 1am. The buildings are all down. Loss quite heavy.

BINGHAMPTON, N. Y., Sept. 23.

Everything bids fair for a large attendance at the laying of the corner stone of the Inebriate Asylum to-morrow. Hon. Edward Everett is here, also, Hon Benj F. Butler, Hon George Folsom, Dr. J. W. Francis, Dr. Peters, and a large number of the Trustees. The trustees, together with prominent citizens of this place, visited the site this afternoon.

Steamboat Accident.

CHARLESTON, Sept. 22.

The steamer Georges Creek met the steamer Hunter of Cape Romain last night, with her shafts broken, and towed her into this port.

Four Children Killed by their Mother.

COLUMBUS, Ohio, Sept. 23.

Yesterday, at Groveport, in this County, a woman named Schelling threw her four children down a well 35 feet deep, and then jumped in herself. The children were three girls and a boy, the oldest 12 and the youngest 2 years. They were all taken out dead. The woman is supposed to have been insane.

Deaths from Yellow Fever.

NEW ORLEANS, Sept 23.

The deaths by yellow fever in this city on Friday were 54, on the 22d 60.

Cotton continues to advance, the sales of to-day reaching 3000 bales. Middling 12 a 12½; Molasses ordinary 20½. Freight to Liverpool 3/4 d.

The steamship Cawhaba has arrived here with Havana dates to the 20th.

An English steamer had brought 650 coolies to Havana from Africa from Cardenas.

Sugar at Havana was dull, the stock was 100 boxes. Exchange on London 15 per cent, on New Orleans 5 per cent, on New York ¼ per cent.

Atlantic Telegraph.

TRINITY BAY, Sept 23.

We can at last announce the gratifying intelligence that the Atlantic Cable is again in complete working order. Good electrical currents have been passing through the line for the last three days, and though we are not informed of the transmission of any special messages it can be assumed with accuracy that the signals received from Valentia are as perfect as ever. It is hoped the cable will be ready for business in a few weeks at the furthest.

ST. JOHNS, N. F., Sept. 23.

The steamer Parana, from New York, arrived here at 9 P M yesterday, and will sail at 8 A M, to morrow for Galway.

HALIFAX, Sept. 23.

The Roseneath was not near enough to the boiling steamer to observe her particularly. All her officers know nothing more than that reported by the Arabian. They cannot say whether she was iron or wood, paddle or screw. All the particulars will be transmitted by the arrival of the Arabian, now hourly expected.

NORFOLK, Sept 22

The steamers Water Witch, Fulton and Arctic and the sloop of war Preble, of the Paraguay expedition, arrived here last night.

Hitchcock's Combination Suction and Force Pump!

FOR SALE, a new kind of PUMP—suction and force—different from any thing now in use, for durability &c. You can draw water from a deep well and force it to any part of your buildings at the same time, in case of fire or any other exigency. You can have it with or without the forcing part. Any person with a jack knife can do all the repairing that it will need for twenty years, as it will not get out of order and is not liable to freeze up like other Pumps. It has received the first premiums at your State fairs, and numerous county fairs.

It may be seen and tried at the Tin Shop of Albert Noyes, Central Street, Bangor, where I shall remain for a few weeks. Town rights for sale.

FOR SALE,

A valuable Mill and Lumbering privilege at St. George, New Brunswick, consisting of a new Gang Mill, with all the modern improvements, a new Dwelling House and Barn, Store and other buildings, and a farm cutting about fifteen tons of hay, in addition to which and immediately adjoining the Mill this property embraces about nine thousand four hundred acres of wilderness land, in one block, well covered with Pine, Spruce Hemlock Cedar and Hardwood, through which runs a chain of lakes and a stream furnishing an abundant supply of water for driving and sawing purposes. On the property is interval land which can be made to produce one hundred tons of hay at a trifling cost. The lakes extend into a very large and well timbered tract of Government land.

This desirable property is on Lake Utopia, within six miles of the village of Magaguadavic, and it presents a rare opportunity for a person wishing to carry on the lumbering business for the European or American markets. The present owners treating in England are disposed to sell the property at a reasonable price.

For further information apply to JOS. GRANGER, Esq, Calais Maine, or to A. J. WETMORE, St George, New Brunswick

CAUTION TO THE PUBLIC

On account of the numerous frauds will impose upon unwary travelers, these boats are cautioned to buy Tickets at the only authorized Agencies of the United States Mail Line as below

By order of the Postmaster General the United States Mail steamers will hereafter be despatched from New York to Aspinwall on the 5th and 20th of each month

Passengers are landed at the Railroad Depot, Aspinwall and conveyed across to the Pacific Station with *many circumstance* This is the *only* uninterrupted route Through tickets guaranteeing no detention in the Isthmus

Transit in *half hour instead of five hours entirely by daylight*, thus avoiding the great expense by night in open boats to fever and ague and 240 miles of dangerous lake and river navigation, over rocks and shoals

Arrangements have been completed so that the regular U S Pacific Mail Steamer will leave San Francisco immediately on arrival of the Atlantic Mail, and passengers This secures passengers by the Mail Line a sure and *short* passage with the greatest comfort and safety to health

Tickets must be secured by one of the Company's Agents before they will be recognized by the Agent of Panama at Tickets thus secured can be obtained of *the only authorized Agent* in the U S and Pacific Mail Steamship Companies in the city C L HALLECKIT Agent,

HAVING an extensive practice of upwards of twenty years continues to secure Patents in the United States, also in Great Britain France and other foreign countries Caveats, Specifications Bonds Assignments &c, and all Papers or Drawings for Patents, executed on liberal terms and with despatch Reports made in relation to the Patentability of Inventions—and legal opinions rendered in all matters touching the same Copies of the claims of any Patent furnished by remitting one Dollar Assignments recorded at Washington

This Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, of ascertaining the patentability of inventions which have passed by, if not unsuccessfully through other hands which can be offered them elsewhere The Testimonials below speak for itself *but more SUCCESSFUL PATENTS to HIM than the subscriber*, and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add, that he has abundant reason to believe and can prove that at no other office of the kind are the charges for professional services so moderate The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents These besides his extensive library of legal and mechanical works, and full access to all patents granted in the United States and Europe render him able beyond question, to offer superior facilities for obtaining patents

LINCOLN'S WATER PROOF BLACKING,

AND LEATHER PRESERVATIVE.

Keep your Feet dry and you will seldom need a Physician

IS it not a fact that the feet are often wet, it is one of the great exciting causes of colds and consumption? Is it not a fact that when leather is often wet and dried, it soon becomes hard stiff, and cracks, but when this water proof thread is rendered soft and entirely impervious to water

After being engaged for 25 years in the manufacture of Leather in all its branches, and being often troubled with wet feet myself I was led to experimenting on different compositions, and found it easy to make it water proof but at the same time extremely injurious to the leather At last by a chemical process, I discovered a preparation which is perfectly harmonious with the astringent properties with which leather is tanned. It will not only make the leather water-proof, but it likewise softens the leather, and it will

Positively wear twice as long.

I have now used it for three years and a large part of that time have worked in a wet tannery with my boots coming in water, and have not had my feet wet during that time I can therefore in all confidence recommend it to the public as the best article in the market.

A Perfect Security against all manner of Fraud or Counterfeiting on Paper—To Prevent Photographs and Anastatic Counterfeits, Erasures, Transfers or Alterations

HAVING purchased the Patent for the exclusive right to manufacture and sell the Chemical Paper in America, invented and patented in England by IZARY OLIVER, a celebrated chemist and officer in the British army, it is hardly necessary to say that the Paper is recommended by Mr Kent, Assayer of the U S Mint, Mr Lyman of the New York Clearing House, and Meade Brothers, extensive and skillful photographers, 233 Broadway, N Y The latter say that no imitation can be made on a check or bank note printed on the Safety Paper Below is our list of prices

Bank Checks	35 cts per lb.
Bank Bills	$18 for 1000 sheets
Bills of Exchange	$25 for 1000 sheets
Promissory Notes	40 cts. per lb
Sight and Time Drafts	$25 for 1000 sheets.
Insurance Policies	40 cts per lb.
Railroad Stocks and Bonds	40 cts per lb
Bank and State Stocks	40 cts. per lb
Bonds and Mortgages	40 cts per lb
Wills and Deeds	40 cts per lb

For wrapping Silks and other fine articles it is excellent, as it prevents moths 40 cts a lb

For Indentures and Agreements, 40 cts a lb

All State and County Records should always be printed or written on this paper as the chemicals inserted in the pulp not only prevents erasure or transfer but makes it lasting as time

For Southern climates it is excellent, and much superior to any other as the moisture of the climate does not destroy it,—the properties inserted in the pulp being a preventive In all the Southern States, Cuba the West Indies, and the Central American States, no public records can be kept over 20 years written on the ordinary paper while the oils and other chemicals inserted in this paper makes it indestructible by the ravages of time It is also proof against moths, rats and other vermin which feast on and destroy all other paper now in use

The Company have now in operation Mills in Morris County, N J of about 300 horse power and are able to fill all orders for Paper at the shortest notice

All orders for the Paper must be addressed to A. NICHOLAS, President of the Company, No 70 Wall street, New York

THE LUXURY OF THE TABLE

HONEY MAKING

Or Forney's Bee Hive

THE subscriber has purchased the right for the County of Penobscot which entitles him to make and sell rights to use the Hive and to make and sell the Honey Boxes which make the Hive so valuable. He is now prepared to sell rights to use the Hive, and to make and sell the Honey Boxes to any person who may wish to purchase. The Hive is so much better than any other hive that it is worth more than double the price of any other hive. The Hive is so simple that any person can make it. The Hive is so cheap that it is within the reach of every person. The Hive is so easy to make that it is within the reach of every person.
